

Name(s):

Museum Guidelines:

- Walk. Don't run.
- **Only** touch things with a "please touch" sign.
- Work alone or in groups.
- Respect other people in the gallery
- Use pencils in the gallery.

Today's Learn & Explore Topic:

 What are three things you learned from the Learn & Explore Lesson today? Share what you learned with a friend or a grownup at home after your visit.

1.

2.

3.

Imagine you are going to make a **special ROM exhibition** about today's topic

 Look at a [museum map](#). With your teacher, decide what gallery or galleries to visit that may have objects, specimens, art, or belongings you would want to include in your new exhibition.

The gallery/galleries we chose are:

 Choose 3 objects in the gallery/galleries. For each one, explain why it belongs in your exhibition about today's Learn & Explore topic.

Object	Why is it in your exhibition?

 **Choose** your favourite thing in the list above. **Draw** it. Add **labels or notes** showing important points. **Explain** why it's your favourite.

Now write a museum label for this object. It should tell visitors:

- What is this object?
- How does it tell the story of today's theme?
- What other stories does it tell?

Back in Class: Use 2D or 3D art tools to re-create these objects in your new display. Combine all your class displays to make a remixed museum!
