**Design Excellence
Teeples Architects
Saturday, September 22**

Welcome to another in our series of star architects. Teeples Architects, founded by Stephen Teeples in 1989, has built a reputation for innovative design, urban vision, spatial ingenuity and technical excellence.

We will view at least four examples of this work; the Boulevard Club, Graduate House of the University of Toronto, 60 Richmond Street East Housing Cooperative (part of the redevelopment of Regent Park), and Audi Midtown. The tour concludes at Teeples’ studio, where this creativity is generated. Corey Keeble, our erudite curator and raconteur will be on hand to inform and enrich our day! And we will have a Teeples architect to enlarge our knowledge of modern architecture in this city.

These are very popular trips which reveal the constant changing architecture of our city.

Barn Quilts
Canada's Architectural Heritage
Wednesday, June 13

We explore Ontario's rural heritage through the unique art of barn quilts. Painted on historic barns, these colourful quilts draw attention to Canada's disappearing rural landscapes, timber frame barns, and the family farm.

Each barn has its own identity. The unique history, ongoing story and continuing cultural contribution of each is beautifully narrated by hand painted board tiles with traditional quilt borders. Each of the 23 barn quilts is the result of a Canada 150 collaboration between the artist and the barn owners.

Led by the Architectural Conservancy of Ontario (ACO), Port Hope Branch, we also explore the historic town's beautiful architectural treasures, including the houses built under the direction of the Royal Ontario Museum's founder, Charles Currelly.

Street Art - From the Present to ?
